

USB Cameras

The new Synapsys cameras are connected directly to the computer's USB port. The VISIO USB mask is available in 50 Hz, 100 Hz and 200 Hz.

Cameras improvements:

- Easy-to-use and to install
- Improvement of camera's sharpness
- Interchangeable cable
- An additional cable is included with VNS4X enabling business continuity
- Better quality image : digital type image
- Compatible with all VNG Ulmer configurations (except MED4)
- Thanks to these cameras, you can use your VNG Ulmer on a laptop
