AUDIOMETERS

-LUIDDESIGNLAB.com

Cello on its optional wall hanger.

____ Cello is a PC controlled diagnostic audiometer, capable of performing fast and accurate air, bone and speech audiometry exams, as well as several additional tests including QuickSIN[™], HF audiometry, and video-VRA. With its revolutionary design, complete feature set and top reliability, Cello is a little masterpiece, ideal for anyone unwilling to compromise on appearance and user experience.

AVAILABLE TESTS

Besides the standard audiometry exams, Cello also performs Hughson-Westlake automated audiometry, high-frequency pure tone exam, speech audiometry, QuickSIN[®], SISI, Stenger and includes a 2 channel Master Hearing Aid.

VIDEO-VRA

With Cello, in few minutes you can also build a video-VRA system with unlimited possibilities for customizing the images and videos used as reinforces. Everything is controlled through the Maestro module, simply connect up to three displays to your computer to provide the reinforces.

PC

COMPUTER CONTROL

Connect Cello to the USB port of your Windows[®] computer and you are ready to go: no driver and no additional cable required. You can control Cello through the Maestro's amazingly user-friendly interface, available also for Noah.

TECHNICAL DATA
